

Domains

How to park a domain name with 1st Domains?

If you wish to use our services, such as email forwarding, URL redirection, or web hosting, with your domain name, you will need to park your domain with 1st Domains.

NOTE: Parking your domain will change the name servers to 1st Domains and may affect any services you had set up with your previous host. If you're unsure, reach out to your previous host; you might be able to simply copy the records over to the 1st Domains name servers.

Parking your domain name.

1. Login to the Account Manager and select 'Manage Domains & Services'
2. Select the domain name you wish to manage from the list
3. Under the 'Domain Name Services' section, click 'Park Domain Name'
4. On the next page, click the Parking Status to turn on parking and accept the pop-up warning message to continue.
5. You can now return to the domain manager, and take advantage of parking services such as URL Redirection and Email Forwarding under the 'Domain Name Services' section.
