

# Domains

## What does it cost to register a Domain Name?

1st Domain's pricing for new registrations and renewals can be found on our pricing page [here](#).

Our Domain name pricing is based on the number of active domains you have registered with 1st Domains in one account. The more active domains you have with us, the discounted price is reduced for the renewal and registration of domains. Renewing or registering domains for multiple years, will lock in that discounted price, saving you more money.

Our prices are some of the lowest in the market, and by checking our comparison page you could save \$200 a year simply by using 1st Domains over our competitors.

We also never charge hidden fees such as 'Domain Hosting' fees, 'Set-up', DNS management or Account fees as some ISP's and Registrars do.
